Inaugural Address

By Mayor Joseph Warren

Gentlemen of the City Council:

Having been chosen Mayor by the citizens of Rochester, I become your presiding officer, by virtue of that office, for the ensuing year. In accordance with the usual custom I will briefly outline and suggest certain policies in our several departments for your consideration. First, it is quite necessary that you should know the financial condition of our city, hence I have prepared the following statement which I have taken from the city records:

APPROXIMATE FINANCIAL STATEMENT

(Dec. 31, 1909)

LIABILITIES

Notes outstanding	$130,540 72	
Accrued interest on notes to date	2,158 25	
Sewer bonds	45,500 00	
Accrued interest on sewer bonds	796 25	
City Hall bonds	65,000 00	
Amount due water works on account	10,433 96	
Checks out, not paid	125 31	
		$254,554 49

CREDIT

Amount due on Collector's list 1909	$18,844 30	
Boston & Maine railroad stock	800 00	
Due from D. S. & R. St. Ry.	239 70	
		$ 19,884 00
Net indebtedness exclusive of water bonds		$234,670 49
Water bonds		$170,000 00

PUBLIC BUILDINGS

Our public buildings are a source of pride to the citizens of Rochester, and we should maintain the same interest as shown in the past, by preserving them and beautifying the grounds. I would advise that the old town house and the old jail lots, and any other property for which the city has no use, be advertised and sold at public auction and the proceeds of the same be expended as you think best.

SHADE TREES, PARKS, AND COMMONS

There is nothing more beautiful, comforting, and inviting in our residential sections than shade trees, and we should do all in our power to preserve them. It would be wise to use the best methods known for the extermination of moths and to set out young trees when your committee should deem it advisable.

I would suggest that our common on South Main street be plowed, leveled, and then seeded down; that gravel walks be laid out, and that shade trees of different kinds be set out in a suitable manner.

Woodman Square Park should be kept in a decent

state of beauty, as our public parks are already too few.

SCHOOLS

I do not claim to be thoroughly acquainted with our schools, but by investigation I find that we have overcrowded schoolrooms in most of our school buildings and, in some instances, we are using dark and poorly ventilated rooms, not originally intended for school purposes. It seems to me that the schoolhouse on School street is no longer suitable for use, on account of its dilapidation and its very unsanitary condition.

I would suggest that you move the Upham street schoolhouse to the School street lot; that it be put in good repair with modern fixtures, and sanitary conveniences. That we might relieve the High and Allen schoolhouses of their congested condition, I would advise an addition of either two or four rooms to the Maple street schoolhouse, which should be preserved by a good state of repair.

The maintenance of our schools for the past year has cost $29,900.00 :

Teachers	$17,711 00
Janitors	1,866 00
Transportation	4,235 00
Fuel	1,410 00
Repairs	1,026 00
Supervision	1,150 00
Books and supplies	1,502 00
Incidentals	1,000 00
	$29,900 00

As our school census shows a constant annual increase, it follows that our annual expense of maintenance must necessarily increase. It seems necessary that you give this subject your undivided attention, so that we may keep pace with the times and that our annual appropriation may be expended to the best advantage of all concerned, and that the health, protection and welfare of our school children be provided for.

HEALTH

Under this department comes the care of our unfortunates. Better by far, be it said, that in other matters we are a failure than to neglect or refuse to care for those who are unable to care for themselves. Any failure to comply with this policy on the part of those who are in charge should be reported at once to your mayor that he may bring it before you, in due time, for your disposal.

Your Health Officer should make a tour through that part of the city where filth and refuse may collect, at least once a month throughout the warm season, to see that all nuisances are removed without delay.

WATER AND SEWERS

The management of our city water and sewer department for the past year has been most satisfactory, and it would be well to continue the same policy, with such changes from time to time as conditions may demand.

ROADS, BRIDGES, AND DRAINS

One of the great problems is how to suitably construct, improve, and maintain our streets, bridges, and

highways with the amount of money usually appropriated for this purpose.

In the eighteen years of our city's existence, our streets and highways have cost us nearly $270,000, with no great apparent permanent results. I have no further comment to offer concerning the past.

I recommend that you be liberal in your appropriation for this department, that you set aside a specified amount expressly for *permanent* construction of our streets, and that your committee on roads, bridges, and drains be authorized and instructed to employ a man of experience and with a thorough knowledge of road building to expend the same; such work to be done in the months of April and May. I would suggest that all the general repairs be made during these months on account of the condition of our soil, and, to this end, I would advise that the city purchase two new road machines, as we would be unable to handle the work with what we have now.

Your city is the possessor of a steam roller and a stone crusher, which should be used constantly in our road building. In line of permanent streets it would be well to use a macadam, with our native crushed rock for the foundation, and a top coating of the Salem trap rock; or, if we can procure good gravel, it might be advisable to use that in some localities; and in either case these streets should be thoroughly wet and rolled and no sand should be hauled thereon.

The condition of our Central Square interests every one, and we all wish to be rid of the dust nuisance which exists for the most part of the year. I would recommend that the concrete be patched, repaired, and thoroughly cleaned, and then sprinkled with crude oil,

excepting the crossings, and arrangements made for sweeping and sprinkling it as often and as long as you might deem it necessary. I would suggest the forming of a precinct in the central part of the city embracing such parts as might, in your judgment, seem advisable, for the purpose of sprinkling the streets, under the management of the committee on roads, bridges, and drains ; also that an extra tax sufficient to defray this expense be collected on all property within such a precinct. I should advise that the Street Commissioner be supplied with two one-horse carts, that he may be able, after the general repairs have been made in April and May, to keep one around the principal streets for the purpose of cleaning the same and doing light repair work, and to send the other one over the country roads to remove loose stones and make such repairs as might be necessary to suitably preserve and maintain our roads, bridges, and drains.

Your Street Commissioner should keep an accurate account of all moneys and labor expended, so that at any time he may be able to inform your committee of the exact standing of your financial condition in this department.

FIRE DEPARTMENT

Nothing but praise is due to our fire department. The city may well congratulate itself in the possession of a thoroughly organized fire department, with our able chief and as good a lot of firemen as were ever gotten together under the same conditions. Such is gratifying, as our life and property depend to quite an extent upon our firemen.

It has been suggested by an able man of wide experience, that a steam fire engine be added to our present

fire equipment, and that a fire alarm box be placed in the East Rochester and Gonic engine houses. This matter I will leave to you for consideration, but at no time should you permit the least delay in furnishing the necessary equipment.

MUNICIPAL LIGHTING

We should arrange for all-night lighting and it might be advisable to exchange some of the arc street lights now in use for a greater number of incandescent lights of sufficient candle power, so that the light will be more evenly divided, thereby benefiting a greater number of the public.

I would suggest, also, that your committee acquaint themselves and, at some time in the near future, report to you for your consideration as to the cost of municipal electric lighting plant suitable to furnish lights for Rochester, in anticipation of furnishing our own lights. It might be wise to give our local Rochester Gas Company a chance to compete with the Twin State Gas and Electric Company in the various lighting contracts as they expire from time to time.

POLICE

On our police to a great extent depends the enforcement of our laws and the maintenance of order. That we may carry out the wishes of the people by enforcing the law, and also rid our city of tramps, your police force must be well organized and work together. I would recommend that the City Marshal have certain office hours known to the public, where all complaints pertaining to this department may be made direct to him ; also that the police clock should be placed in his office where

he may inspect the same and be able to report at once to your committee any neglect of duty on the part of your night watchman, and that he should, in conjunction with the police committee, have entire control of the police force and be held responsible for their acts as far forth as in your judgment would seem right.

EQUALIZATION OF TAXES

One of the greatest evils existing in our city today is the unequal values placed on property for the purpose of taxation, and, that this wrong may be righted, I recommend that your assessors be instructed to commence their labors, under pay of our city, as early as February to acquaint themselves with the value of property throughout the city, so that they may be able to act in an understanding and impartial way in the assessment of taxes, in a proper and reasonable readjustment in values, and in the finding of additional property for valuation.

There is no man so unfair as to try to avoid his just taxes if his neighbor pays in the same ratio, and I believe that your Board of Assessors will have the help and co-operation of all the property owners in the city in righting this wrong.

GENERAL REMARKS

By accepting our several offices, we have become servants of the people. I fully appreciate the honor conferred upon me by the citizens of Rochester, and I am not unmindful of the responsibilities and the perplexing problems which may come before us for solution. I realize that in order to do credit to ourselves and jus-

tice to those whom we represent, we must devote a great deal of our time to the cause, and act at all times in a conservative and impartial manner. There will be many things to come before you which I have not mentioned for your consideration, and, as they are presented, they should be referred to the proper committee and ample time taken for investigation and consideration by that committee. It is my desire and request that you fulfill your duties and obligations in all matters which may come before you in your several departments. Our deliberations in the Council should always be open, frank, and free. We should not tolerate, under any conditions, the star chamber secret meeting, but our meetings should be open to the public.

It is my urgent desire and purpose to place the various duties and obligations upon the appropriate committee and to hold it strictly accountable for the proper discharge of its duties without shirk or quibble.

Whenever and wherever proper and expedient, we should join hands with our Board of Trade and work heartily and zealously with it, that we may increase the industries and manufacturing life of our city.

I earnestly believe that our city charter should be amended so that our three assessors of taxes and the street commissioner should be elected by popular vote instead of by the City Council.

The Australian Ballot should be adopted by this city in its municipal election, and to accomplish that end the City Council should instruct the selectmen of each ward to incorporate such a provision in their several warrants before the next election, so that our voters may adopt this system of voting.

In our various undertakings, let us ask the co-opera-

tion of the general public that we may obtain the best results and the greatest good for the greatest number of citizens and a square deal for all. In the interest of fair play, let us solicit and encourage interviews with all who have the welfare of our city at heart, that, at the expiration of our term of office it may truthfully be said that we have, in our official capacity, fulfilled our obligations and promoted our city's interest to the best of our ability.

City Government

As Organized January 5, 1910

Recommendations for Annual Appropriations

We, the Committee on Finance, having considered the amount necessary for the maintenance of the several departments for the year 1910, recommend the following amounts be appropriated for their support:

Sidewalks	$ 500 00
Health	300 00
Public Library	3,000 00
Sampson Post	150 00
East Rochester Library	200 00
County tax	11,940 00
Street Lights	6,600 00
Highway	8,000 00
Macadam and permanent streets	6,000 00
Fire Department	5,000 00
Interest on City Hall bonds	2,600 00
Salary	6,000 00
Sewer bonds	6,500 00
Interest on sewer bonds	1,365 00
Miscellaneous	1,500 00
City Poor and Soldiers' Aid	2,000 00
Schools	28,500 00
Police	3,500 00
Browntail moths	800 00
Coal for City Building	500 00
Insurance	915 00
High Schoolhouse notes	3,000 00
Parks and Commons	100 00
Sewerage	300 00
Total	$99,270 00

Important Resolutions and Orders

Passed by the City Council

ANNUAL APPROPRIATION

Resolved by the Mayor and City Council of the City of Rochester:

That, for the support of the various departments for the year 1910, there be raised by taxation the sum of ninety-nine thousand, two hundred and seventy dollars ($99,270), and the Assessors are directed to assess that amount with such overlay as may be thought necessary, the interest on notes to be provided for by the amount coming from the state.

Passed January 18, 1910.

TRANSFER OF MONEYS

Resolved by the Mayor and City Council of the City of Rochester:

That, if found necessary in closing the accounts for the year, to transfer from any department where may be a surplus to any other department that may be overdrawn, the Committee on Finance are hereby authorized to make such transfer.

Passed January 6, 1909.

PRINTING REPORTS

Resolved by the Mayor and City Council of the City of Rochester:

That the City Clerk be instructed to prepare for the printer all matter that is to go into the City Reports, and that the Committee on Printing be instructed to make contract for having the same printed and bound.

Passed January 6, 1909.

MONEY FOR ADDITIONAL SCHOOL ROOMS

Resolved by the Mayor and City Council of the City of Rochester:

That the sum of six hundred dollars be raised on note or notes of said city for the purpose of purchasing desks, seats, and other apparatus necessary for establishing three additional school rooms, and that the same be made a part of the city debt.

Passed January 6, 1909.

BIDS FOR PRINTING REPORTS

Resolved:

That the Committee on Public Printing be instructed to procure bids on the printing of the City Reports, and that they be instructed to furnish specifications for the same, and that preference be given the printers of Rochester, the contract to be let to the lowest responsible bidder.

Passed January 19, 1909.

EXTENDING THANKS TO MRS. BROWN

Resolved by the Mayor and City Council of the City of Rochester:

That the thanks of the City of Rochester be and hereby are extended to Mrs. Anna Brown, of Peace Dale, R. I., for the excellent portrait of her father, Charles W. Brown, who served the city so faithfully as City Clerk from its inception as a city until his death, a period of eleven years, and whose genial and gentlemanly qualities endeared him to all who knew him, and whose memory will ever be cherished by our city for his sterling manhood.

And the City Clerk is hereby instructed to forward a copy of this resolution to Mrs. Brown.

Passed February 2, 1909.

MOVING PICTURE AND VAUDEVILLE SHOWS

Amend City Ordinances by striking out after the enacting clause and inserting the following, so that it shall read as follows:

Be it Ordained by the City Council of the City of Rochester as follows:

SECTION 1. All public shows of moving pictures held in the Village of Rochester, in said Rochester, shall pay to said city the sum of fifty dollars for the first three months, and twenty-five dollars every three months thereafter, in advance, for a license to exhibit said moving pictures for three months next ensuing from the date when said license is given.

SECTION 2. When said public show of moving pictures and vaudeville are given in the same building,

either together or separately, the license fee for exhibiting the same shall be seventy-five dollars for the first three months and fifty dollars every three months thereafter, payable in advance.

SECTION 3. No child of school age shall be allowed during school hours to attend any vaudeville or moving picture show unless accompanied by parent or guardian.

SECTION 4. No public show of moving pictures or vaudeville shall be held after twelve o'clock Saturday night, or before twelve o'clock Sunday night.

SECTION 5. The Mayor, or in his absence the City Clerk, shall have power to issue said license.

SECTION 6. Any person who shall set up, maintain or exhibit any public show of moving pictures or vaudeville without a license as herein stated, or contrary to the terms of said license, shall be fined not exceeding ten dollars for each offense, or be imprisoned not exceeding six months.

SECTION 7. This ordinance shall take effect upon its passage.

Passed March 2, 1909.

APPROPRIATION FOR TAKING UP OLD NOTES

Resolved by the City Council of the City of Rochester:

That the Mayor, City Treasurer, and City Clerk be authorized to hire on notes of said city an amount not exceeding fifty thousand dollars, for the purpose of refunding notes now outstanding against said city, as called for.

Passed April 6, 1909.

DESTROYING OLD BILLS

WHEREAS, The old bills paid by the city are accumulating so fast that unless properly filed will be of no practical value to the city, and as the cases necessary to file them would be quite expensive—

Be it Resolved :

That the City Clerk be authorized and instructed to destroy all old bills paid by the city prior to the year 1902, and that hereafter one year's bills shall be destroyed annually, meaning and intending that there shall be preserved the last seven years' bills at all times.

Passed April 6, 1909.

PURCHASING A PAIR OF HORSES

Resolved by the Mayor and City Council of the City of Rochester :

That the Committee on Roads, Bridges, and Drains be authorized to purchase a pair of horses for the use of said city, at a price not to exceed six hundred dollars ($600), and that the said sum of six hundred dollars be taken from the annual appropriation for roads, bridges, and drains for the year 1909.

Passed April 6, 1909.

SELLING PAIR OF OLD HORSES

Resolved by the Mayor and City Council of the City of Rochester :

That the Committee on Roads, Bridges, and Drains be authorized and empowered to sell the pair of horses owned by the city and purchased of Miles & Walker, if in their judgment, a satisfactory price can be obtained.

Passed April 6, 1909.

HIRING MONEY IN ANTICIPATION OF TAXES

Resolved by the Mayor and City Council of the City of Rochester:

That the Finance Committee be authorized to raise on note or notes of the city a sum of money not exceeding fifteen thousand dollars ($15,000), in anticipation of taxes, providing it be necessary to do so.

Passed May 4, 1909.

RELATING TO JANITOR'S DUTIES AND SALARY

Be it Ordained by the City Council of the City of Rochester as follows:

Amend Chapter 28 of the City Ordinances, relating to the duties and pay of the Janitor by striking out the last four lines of said ordinance, from the word "said" to the word "city" inclusive, and inserting in place thereof the following: "It shall be the duty of the Janitor to keep the fire station clean and in order, take care of the chemical and see that it is in proper condition at all times, to drive the chemical to all fires night or day; to take care of the stage and work on the stage for all shows, manage the switch board, scenery, and everything pertaining to the stage at all times; to keep in proper condition the private telephone system in the city building, the lawns around the city building and on Central square; and said Janitor shall be at all times subject to the orders of the Mayor. He shall be paid the sum of sixty dollars per month in full for all services rendered"; so that said ordinance as amended shall read as follows:

That the Mayor of said City of Rochester shall

have the sole power of appointment of a janitor for said city and the sole power to discharge him at any time. The duties of said janitor shall be to oversee and take care of and make all repairs upon the police and fire alarm wires and system belonging to said city. He shall take care of the city building, keeping the same in proper condition, and care for the heating apparatus and lights and attend to the lighting and heating of said building, and shall take care of the police station and attend to all matters connected therewith, wind the town clock, keep the lawn on Central square and the lawn about the city building in proper condition. It shall be the duty of the janitor to keep the fire station clean and in order, take care of the chemical and see that it is in proper condition at all times, to drive the chemical to all fires night or day; to take care of the stage and work on the stage for all shows, manage the switch board, scenery, and everything pertaining to the stage at all times; to keep in proper condition the private telephone system in the city building; and said Janitor shall be at all times subject to the orders of the Mayor. He shall be paid the sum of sixty dollars per month in full for all services rendered.

Passed July 6, 1909.

GRANTING VACATIONS

Resolved by the Mayor and City Council of the City of Rochester:

That the City Marshal, Assistant Marshal, the Night Watch, and the Clerk in the City Clerk's office be given a vacation of two weeks, under the direction of the Mayor, without loss of pay.

Passed July 6, 1909.

INSPECTING MOVING PICTURE BUILDINGS

Resolved by the Mayor and City Council of the City of Rochester:

That the Chief Engineer of the Fire Department be and hereby is authorized and instructed to inspect all buildings where moving pictures now are or may hereafter be exhibited, and see that the rules of the New Hampshire Board of Underwriters relating to exhibition of moving pictures are strictly observed in each case.

Passed August 3, 1909.

TRANSFER OF FIFTY DOLLARS

Resolved by the Mayor and City Council of the City of Rochester:

That the City Clerk be authorized and instructed to transfer the sum of fifty dollars ($50) from the appropriation for Browntail Moths to the appropriation for Shade Trees, Parks and Commons.

Passed August 3, 1909.

Report of

Superintendent Water Department

Year Ending December 31, 1909

To the Committee on Water Works:

GENTLEMEN :—The eighteenth annual report of this department is herewith submitted.

When I assumed the duties of this department, Jan. 6, 1909, the water was being taken from the reservoir, and was very poor, having a very bad taste and odor, a condition that had existed through the entire summer of 1908.

Immediately after my election, I commenced to flush and inspect hydrants. Five were found to be frozen solid. Soon after the hydrants had been flushed, the blow-off and mud-gates thoroughly run, the water began to improve.

April 27, 1909, I applied the sulphate of copper in reservoir. On May 1, 1909, the disagreeable taste and odor had entirely disappeared and the color considerably improved.

Water was supplied from reservoir until July 25, when I turned on Round Pond. October 27, the water in Round Pond showed algæ to some extent. I immediately shifted back to the reservoir and continued to draw from this source until the present time.

The water has been very good for the past year, and but very little fault has been found. I have done considerable work around the shores of Round Pond and

reservoir. Have cleaned out the stand-pipe and painted the same outside and in, also the fence around the lot. All the hydrants have been painted one coat.

Following is the amount of pipe, new services, etc., laid during the year:

	Feet
Main pipe laid on Eastern avenue, 6-inch	76
Off Broad street, 1-inch	207
On Morton avenue, 2-inch	187
Waldron " "	148
Total laid, 1909	618
Total feet laid to date	160,403
Miles "	30 miles, 313 feet

Gates set during the year:

2-inch	2
1-inch	1
Repaired	7
Hydrants to date	179
Repaired	58
Old hydrants taken out and replaced by new	2

Number feet service pipe laid:

	Feet	Inches
¾-inch	2,028	3
1-inch	187	
Total feet	2,215	3

New services laid during year	20
Total " to date	1,465
Services relaid during year	35
Number meters set during year	17
Repaired during year	12

Number meters taken out	6
In use to date	150
Owned by city	100
By consumers	50
Number joint leaks in main pipe	11
Service pipe	12

There have been three breaks in the new 16-inch main. Two were caused by imperfect pipe. One was caused by a washout on the Rochester Fair Association's land on the night of March 25, when four lengths washed out. The break occurred at 7 : 45 p. m., and in just thirty minutes the city was without water for fire protection or domestic uses. At 11 : 45, I turned on the 12-inch main. From this source the city was supplied until April 1, when the water was again let on to the 16-inch main.

Following is a list of supplies and tools belonging to this department :

12 feet 18-inch cast iron pipe
85 " 16-inch "

1 roll-top desk
4 office chairs
2 sets fall blocks and rope
1 cross cut saw
1 ice "
1 hand "
1 wood "
1 compass "
4 pails
1 grindstone
5 chains
3 rakes
1 express wagon
1 work "
1 express sleigh
1 dump cart
1 horse
1 harness
2 hoes
4 grub hoes
1 coal shovel
1 snow shovel
1 hose nozzle
3 bull points
11 rubber rings for hydrants
30 pounds cotton waste
200 feet 2½-inch hose
2 bit braces
1 extension bit
2 axes
1 new Ludlow hydrant
3 old Coffin hydrants

4 1-inch meters (out of repair)
1 $\frac{5}{8}$-inch " "
5 $\frac{3}{4}$-inch " "
1 $1\frac{1}{2}$-inch " new
1 $\frac{1}{2}$-inch " "
1 Burbank thawing machine

Respectfully submitted,

L. P. PICKERING,

Superintendent of Water Works.

Report of

Superintendent of Sewers

for the Year Ending December 31st, 1909

To the Committee on Sewers:

GENTLEMEN:—The annual report of the Superintendent of Sewers is herewith submitted:

Number connections put in during year	22
To date	998
Number feet main pipe laid during year:	
Logan street, 6 inch	56
Eastern avenue, 6-inch	60
Total feet main pipe to date	89,166
Miles main pipe laid to date	16.166ft

The sewers have been flushed spring and fall, and were found in good condition, except on Washington street, where I found fifty feet of main pipe filled with sand.

I have been called to clean out twenty sewer connections; in most cases fibrous roots caused the trouble.

The sand basin at Willow Brook has been cleaned out twice. The bushes have been cut on the pipe line in the McDuffee pasture.

I believe the entire system to be in good working condition.

Following is a list of supplies and tools belonging to this department:

100 Ys, 4-in. to 6-in.
8 Ys, 8-in. to 20-in.
7 Ys, 4-in. to 12-in.
1 Y, 4-in. to 8-in.
10 Ys, 4-in. to 18-in.
1 Y, 8-in. to 18-in.
8 Ys, 4-in. to 10-in.
2 Ys, 8-in. to 10-in.
1 T, 6-in. to 6-in.
2 Ts, 6-in. to 15-in.
27 feet 15-in. pipe
70 " 12-in. "
130 " 4-in. "
58 " 4-in. C. I. soil pipe
10 8-in bends
40 4-in. quarter bends
60 4-in. one-eighth bends
Half barrel cement
2 grade poles
1 plank puller
2 levels
2 brick trowels
1 brick hammer
1 trench line
1 6-in. test plug
1 8-in. test plug
1 10-in. test plug
4 trench frames
500 feet trench plank
1 ditch pump

12-ft. 3-in. suction hose
2 tampers
300 feet 3-8 inch wrought iron pipe
200 feet 1-4 inch " "
3 pails
About 2000 brick
Engineer's level

Respectfully submitted,

L. P. PICKERING,
Superintendent of Sewers.

Report of

Chief Engineer of Fire Department

To the Honorable Mayor and City Council:

In rendering my report of the Rochester Fire Department for the year ending December 31st, 1909, I would state that there have been 18 bell calls, 13 still alarms, four brush fires, two false alarms, one at East Rochester, and 17 in the city proper.

The amount of property involved was as follows:

Valuation of buildings	$55,400 00
Insurance on same	38,000 00
Losses paid	17,974 00
Contents (valuation of)	47,400 00
Insurance on same	27,300 00
Losses paid	24,673 00

There have been purchased and added to the equipment 1000 feet of 2½ inch rubber lined double jacket hose.

I would recommend a permanently employed driver to stay at the central fire station for day and night duty for quick attendance at fires within the city limits; also 1000 feet of rubber lined double jacket hose; also one second size steam fire engine.

In case of fires in the large buildings, three and four stories high, our pressure is not sufficient to do good work.

In my last report I recommended three new fire alarm boxes, but none were purchased. I would earnestly recommend that they be purchased as early as possible this season.

The cost of the fire department for the year will be found in the report of the committee on finance.

In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the members of the fire department for the promptness with which they have discharged their duties during the past year. We would also thank the members of the City Government who have rendered the department any assistance during the year.

Respectfully submitted,

H. C. HANSON,

Chief Rochester Fire Department.

December 31, 1909.

Inventory of Property

3 hose reels
2 hose wagons
1 hook and ladder truck
1 combination chemical hook and ladder truck
1 set of runners for same
3 sets of sleds for hose company
2 sets of swing harness
Rubber coats and hats for each company
4 horse blankets
6,100 feet of hose

18 Covers, automatic respirators
1 deluge set
5 hydrant gates
10 play pipes
6 three-gallon chemical extinguishers
590 feet of ladders
1 hand engine

Location of Fire Alarm Boxes

BOXES	
16	North Main street, corner Bridge street.
17	Main street, corner Congress street.
21	River street, corner Lafayette street.
23	Waldron avenue, corner Chestnut street.
25	North Main street, near Fairbanks' store.
27	North Main street, near S. H. Burnham's.
31	Wakefield street, near High schoolhouse.
32	Wakefield street, near M. H. Plummer's.
33	Hanson street, near The Rochester Hotel.
34	Summer street, near Mrs. Roberts' stone house.
35	Portland street, near Brigham's store.
37	Silver street, near electric light station.
41	South Main street, near Wallace's shop.
43	Upham street, near schoolhouse.
47	Car barn, foot of Charles street.
52	Charles street, corner May street.
54	Charles street, corner Woodman street.

Signals

Two strokes of the bell is the all-out signal.

Six strokes of the bell is for a brush fire, or a fire seen at a distance, where the department is needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the Chief Engineer.

General Rules

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire :

1. Never pull a box for a fire seen at a distance.

2. Never pull a box while the alarm bells are ringing, nor until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.

3. To ring in an alarm, break the glass in the key box, and open the outside door with the key. Pull down the brass crank (seen inside) till it stops; then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in a trap lock and can only be removed by a release key, which is carried by each engi-

neer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.

4. Never pull an alarm for a fire seen at a distance.
   Never touch a box except to give an alarm for fire.
   Give an alarm for no cause other than actual fire.
   Don't give an alarm for a chimney fire.

Report of City Marshal

To the Honorable Mayor and City Council:

GENTLEMEN:—I have the honor to submit the following report of the Police Department for the year ending December 31, 1909:

The police force consists of the following officers, viz.: C. A. Allen, City Marshal; Albert F. Wilkinson, Assistant Marshal; Ferdinand Sylvain.

ARRESTS

Drunks	62
Assault	24
Keeping for sale	17
Harboring	2
Larceny	14
Defacing building	4
Obstructing officer	1
Non-support	1
Depriving hens of food	1
Stubborn child	1
Disorderly person	1
	128

DISPOSED OF AS FOLLOWS

Settled	40
Discharged	14

Committed to House of Correction	13
Gave bonds	16
Suspended	12
Committed to jail	12
Placed on file	6
Mittimus at call of Marshal	3
Promised to pay	5
Nol Prossed	3
Continued	4
	128

Amount of fines and costs collected	$557 83	
Witness fees, etc.	28 78	
		$529 05

Paid Treasurer	$529 05

Number of lodgers	930

In addition to the cases enumerated, service has included the investigation of many matters that have not been brought before the court, attending to many complaints, and devoting much time in the effort to preserve order, protect property, and enforce the law

I am pleased to say that the officers under my command have been prompt and efficient in the discharge of their duties.

Respectfully submitted,

C. A. ALLEN,

City Marshal.

Report of Superintendent of Streets

To His Honor the Mayor and City Council:

GENTLEMEN :—In accordance with the required custom, I herewith submit the annual report of the work of the highway department for the year of 1909, together with a list of tools which now belong to the department.

Much repairing in general, some permanent improvements, and the usual work of the department has made the year a particularly busy one.

The care of ice and snow and sanding walks does not keep the roads in repair in any way, and while the expense is considerable it does not show after the ice and snow are gone.

Although the soil of our streets and roads is naturally the poorest of all road materials, we have managed to keep them passable. There has been considerable work accomplished in the outside districts with the road machine.

Lafayette street, which was in a bad condition, has been turnpiked and graded with 300 loads of gravel. Three hundred and sixty loads of gravel were used to grade Washington, Allen, Wallace, Walnut and Portland streets.

After Summer street was turnpiked it was graded with gravel furnished by the Street Railway Company.

There have been eight or ten miles of bushes cut this year, re-planked several small bridges, and built a new top on Flat Rock bridge.

A great improvement to Eastern avenue was the construction of the large and durable culvert at Jacob's brook.

There have been eight catch basins and one manhole built on Summer street.

SIDEWALKS

The east side of Walnut Hill was cut down about five feet, in order to build the new sidewalk, and the gravel was used to grade the walk; also 100 loads of cinders. There has been about 400 loads of cinders used in repairing the other sidewalks.

PERMANENT WORK

Among the permanent improvements we have made this year is the macadamizing of a part of the new road to East Rochester. This work required 218 loads of stone, that were all well rolled by the use of the steam roller.

A piece of macadam was put in on River street; also on Wakefield street, from Central square to Union street.

On the new road at East Rochester we have done quite a little grading by the use of stone and gravel. This makes a very good road for the money expended, especially as there is considerable heavy teaming.

Machinery, Tools, and Material on Hand

1 stone crusher
1 steam road roller

3 sets two-horse sleds
3 sets double harness
2 two-horse dump carts
1 pair wheels
8 small shovels
3 plows (old)
6 post-hole spoons
3 cross-cut saws
1 hand roller
1 jackscrew
3 striking hammers
2 monkey wrenches
2 road machines
1 boiler and engine
8 horses
1 set one-horse sleds
6 single harness
1 stone barge
10 picks
10 coal shovels
4 chains
6 crowbars
3 sets fall-blocks and ropes
12 lanterns, with red globes
12 hand drills
3 sledges
10 snow ploughs
6 hoes
3 turf diggers
2 long handled shovels
5 steel rakes
3 brush scythes and snaths
4 street blankets
3 horse brushes
2 wagon jacks

2 hand saws
1 brush axe
3 grub hoes
2 pitchforks
4 stone forks
6 stable blankets
3 curry combs
3 mane brushes
2 axes (old)
3 spread chains
3 two-horse scrapers

Respectfully submitted,

GEORGE T. McDUFFEE,
Superintendent of Streets.

Police Court, Civil Docket

Amount received for writs	$ 8 21
entries	2 50
	$10 71

CREDIT

By cash in hands of H. L. Worcester, clerk of Police court	$10 71

[For Criminal Docket see City Marshal's report]

Report of Tree Warden

To the Honorable Mayor and Council of the City of Rochester:

GENTLEMEN:—The year 1909 has been quite expensive for the city. There were about sixty dead trees on the streets of the city to be removed, which was quite costly, as there were a great many wires and houses to interfere with the work. The work was done with very little expense to the city, costing only three dollars and seventy-five cents ($3.75) for damage on property.

The browntail moth is the most serious problem to be contended with at the present time. The city trees last year were cleaned as thoroughly as possible, and very few caterpillars were seen on our streets. The work of removing the moths on private property was not as thoroughly done as it should have been, as the citizens would get most of the low ones and leave the high nests on the trees. There were other citizens who would cut them off the trees and leave the nests on the ground, which was a very careless way of cutting them.

Respectfully submitted,

G. E. GOODWIN,

Tree Warden.

Report of Overseer of Poor

To the Mayor and City Council of the City of Rochester:

Following is a list of those receiving aid and the amount furnished each applicant for the year ending Dec. 31, 1909:

DEPENDENT SOLDIERS' AID

James M. Jenness	$ 60 00
Mrs. John A. Wilkinson	83 84
Henry C. Stevens	29 50
J. W. Hall	72 00
David Corson	72 00
Mrs. Charles Rust	57 00
Mrs. George N. Howard	48 00
Samuel L. Randall	61 50
Mrs. Charles H. Wills	113 00
John S. Colbath	70 00
Oliver Hussey	14 50
Bridget Cotter	60 00
Mrs. John Billings	70 50
Charles A. Glidden	18 30
James Nealand	14 00
Geo. W. Hurd	6 00

CHARLES E. GOODWIN,

Board of Health.

Report of the Trustees

of the Rochester Public Library

1909

At a meeting of the trustees of the Rochester Public Library, December 31, 1909, it was voted that the report of the secretary, librarian, and treasurer be presented to the city council as the annual report of the trustees for the year 1909.

GENERAL READING ROOM

Report of the Library Trustees

To the Honorable Council of the City of Rochester:

GENTLEMEN:—The sixteenth annual report of the Trustees of the Rochester Public Library is respectfully submitted, also the librarian's report, as a part of the report for the year ending December 31, 1909.

It is with much satisfaction the trustees submit to the council and to the citizens of Rochester the annual report of the librarian, showing the interest of the people in the library, as indicated by the steady increase each year in the circulation. The increase this year over last in the circulation of adult books at the central library is 2,345.

The trustees wish to express their appreciation of the interest taken by the librarian, Mr. Marsh, at the Gonic Branch, as shown by the increase in circulation over last year of 1,409 volumes. We have also purchased periodicals for the use of the reading room amounting to $11.83.

The circulation at the Meaderboro branch for the year was 465.

We have expended for all classes of adult books this year $513.57, adding 1,222 volumes, making a total of 13,723 volumes in the library. Among the gifts to the library during the year was 681 volumes from the Baptist Sunday-school, also an oil portrait of Jonathan P. Cushing (born in Rochester, N. H., March 12, 1793, President of Hamden Sidney College, 1821 to 1835), given by Miss Martha Hanson of Dover, N. H.

During the year we have added new book shelves in the reading room, a book case in the delivery room, also telephone and gas plate for use in repairing books. There are many other things needed for the better equipment of the library and the continual call for a catalogue, but owing to the limited appropriation the trustees are compelled to continue the work within these means.

In conclusion, we would call attention of the public to the fact that the library has only one bequest of $1000, the interest of which is used for the purchase of juvenile books. Most all other libraries are endowed with a fund sufficient to purchase books, and we hope that some one will remember the library in this way. The trustees would request of the Honorable Council that they continue the appropriation of $3,000 for 1910.

The trustees wish to express their appreciation of the faithful service of M. Gertrude Fairbanks, the first assistant, who resigned her position during the year.

We also recognize the zeal and intelligence of our librarian, and appreciate the courteous work which the librarian and her assistants have rendered the public during the year.

For the Trustees,

JOHN YOUNG,

Secretary.

Report of the Librarian

To the Board of Trustees of the Rochester Public Library:

GENTLEMEN:—I herewith submit the sixteenth annual report of the Public Library for your consideration.

The statistics for the year 1909 are as follows:

ACCESSIONS

Number of volumes in library January 1, 1909			12,533
Number of volumes purchased from general fund		381	
Number of volumes from Jennie Farrington fund		56	
Number of volumes added by binding		112	
Gifts		673	
Total additions for the year		1,222	
Number of books worn out and discarded	18		
Number of books lost or destroyed	4		
Unaccounted for	10		
Total loss to library		32	
Total increase to the library			1,190
Entire number of books in library to date			13,723

CIRCULATION

Number of books given out from main desk	32,956
Given out from children's room	10,876
Total circulation at library	43,832
Number of books given out at Gonic	2,938
East Rochester	1,401
Meaderboro	465
Total circulation for the year	47,636
Increase over last year	1,389
Number of days open during year	299
Largest circulation any one day	463
Smallest circulation any one day	32
Average daily circulation	150
Increase in daily circulation over last year	10
Largest number of books given out in one week	1,104
Smallest number	666
Largest month, March	4,480
Smallest month, September	3,117
Average daily circulation in children's room	37
Decrease from last year	4
Circulation of unbound magazines and pictures	3,377
Number of books given out to teachers for school work	263

READING ROOM

Number of adult readers as reported	5,697
Juvenile readers	5,674
Entire number	11,371
Decrease from last year	416

REGISTRATION

Number of cards in use at library		2,353
	Gonic	388
	East Rochester	1,504
	Meaderboro	31
Entire number		4,276

REPAIRS AND BINDING

Number of books re-bound during the year	676
Magazines newly bound	112
Entire number of books repaired during year	4,319

CATALOGUING

Number of books classified and catalogued	1,308

ACCESSIONS

As you will note by the above statistics, the library now numbers 13,723 volumes, representing more than an equivalent number in dollars of public funds. The work of the year, therefore, consists not only in the care of this property, but the accumulation of more volumes, their preparation and proper recording, their announcement to and circulation among the reading public.

CIRCULATION

That the public is well aware of the pleasure and advantage gained by a use of the library, is shown by the circulation and by the number of readers and students who visit the library daily. The net gain in

circulation for the year, of 299 days, is 1,389 over the 309 days recorded last year.

As you will notice, there has been an increase at each agency. At the main library, 2,345 more books were given out to adults, while in the children's room the number was 1,837 less, making the net gain only 508.

The decrease in the circulation in the children's room may be, in part, due to the small number of new books added. Only $50, the interest from the Jennie Farrington fund, being spent for this purpose.

It is a deplorable fact, that the year's circulation shows such a small percentage of the more solid reading. When one sees the splendid things in biography, history, travel, philosophy, religion, literature, science and the arts, standing on the shelves day after day, so seldom asked for, it would almost seem wise to set apart one day each week for a visiting day, that the patrons might make their acquaintance. Surely they would never again be so entirely neglected for the modern story.

REFERENCE ROOM

The reference work, while no less than heretofore, has been greatly simplified by the aid which the teachers have given their pupils. Instead of unloading an entire class on the library, each pupil with a vague query, the answer to which must be pointed out, step by step, the pupils have come with a definite idea of what they want and with a little help, can look it up for themselves.

READING ROOM

It is a little disappointing to report a dropping off in the readers, but it has been impossible, with the rush of work, to count every one, and it is safe to say that the uncounted readers would swell the number greatly.

HISTORICAL DEPARTMENT

The historical department has received no great impetus this year, although a few valuable gifts have been received; chief among them being that of Miss Martha Hanson, of Dover, a fine oil portrait of Jonathan P. Cushing, a son of the early days, of whom Rochester has every reason to be proud. Letters and good words have been received expressing an interest in this department and giving promises for the future. A few books have also been added to the New Hampshire collection. The corner in the reference room devoted to this department is already filled, and much interesting material has to be kept in other parts of the building. It is only a matter of a short time when the books and other material of local and New Hampshire interest should be moved to an upstairs room.

THE AGENCIES

The agencies have been doing commendable work this year. That Mr. Marsh, of the Gonic agency, has devoted a great deal of time and thought to the work is made evident not alone by his larger circulation, showing an increase of 1409 over last year, but by his effort to establish a reading room in connection with it. The periodicals furnished have not only provided reading matter for the tables but for the circulating department as well.

East Rochester, beside sending many of her readers, students and teachers to be accommodated at the public library, has given out 207 more books than last year, the circulation being 1,401.

The little Meaderboro agency, to which Mrs. Brock so cheerfully opens her home and gives her time, asks

chiefly for fiction. That the books are appreciated, the 465 books given out to the 31 readers will show.

BOOKS PURCHASED

Among the additions, beside the books of historical interest before mentioned, have been the Rand & McNally Atlas, 40 volumes of magazines, completing sets of Harper's and World's Work, a complete set of St. Nicholas, duplicating the 60 volumes so nearly worn out; and 30 volumes of the Youth's Companion, 61 volumes Scientific American and Supplement, and 23 volumes of the Outlook which have been bound. These, together with others in the library, and the indexes to date, make a splendid library of magazine literature.

GIFTS

The 600 or more volumes given by the Baptist Sunday-school have also been a great addition. These books were well selected, many of them by well known and standard authors and supply a long-felt want for religious stories, as well as aids to missionary and Bible study. It is surprising the demand there is already for the Baptist Sunday-school books.

PICTURES

Through the kindness of the Rochester Woman's Club the pictures of the Library Art Club, have again adorned our walls, and have been much appreciated. If a few weeks elapse between the going and coming of the sets, the remark is often heard, "How lonesome it is without the pictures."

STORY HOUR

The story hour inaugurated this year proved interesting to the children only during those days between fall and spring, when out-of-door life did not call them so loudly. The largest attendance at any one time was 65.

CONVENIENCES

Among the conveniences of the year have been the extra shelving for folio magazines, the gas plate for steaming, the telephone and the additional book privileges granted to the patrons.

BOOK LISTS

In addition to the regular cataloguing on cards, the title of each new book is posted on the bulletin. These, after serving their purpose, are placed in boxes and circulated among patrons who cannot visit the library. One drawer in the card catalogue is also devoted to the additions of the year. In these ways, as far forth as possible, new books are made known to the people. The demand for a supplement to the printed catalogue of 1899 continues, and although it seems impossible to spare either time or money, something must be done about it very soon, as we have added more than 6,000 volumes since the printing of the catalogue.

WORK OF THE YEAR

The work of the library, handicapped as it has been by the loss of an assistant, well used from five years' experience to her duties, has demonstrated very forcibly the necessity of having someone in training for

the work. A new girl, no matter how well qualified and willing, cannot, in a few weeks or even months, learn even the general routine work of an institution the size of this. The public must be waited on cheerfully and promptly, whether new books are added or not or whether the office is piled high with unfinished work, or the agencies asking to be supplied with fresh reading matter and whole stacks of books waiting to be either repaired or sent to the bindery. All new plans for the year have had to be quietly thrust aside until some more favorable opportunity.

The plans for 1910, in addition to those already mentioned, include files of clippings, mounting of pictures, a little elaboration of the bookkeeping system, and more freedom for patrons.

I wish, at this time, to extend my sincere thanks to any and all who have in any way assisted in the work of the year. To Mrs. Brock, Mrs. Shorey, and Mr. Marsh, who have charge of the agencies ; Miss Fairbanks, who, until September, attended to her duties as assistant so faithfully and well ; to Miss Tibbetts who stepped into the vacancy made by the resignation of Miss Fairbanks, taking up the work so efficiently that there was hardly a break ; to Miss Bassett, who, entirely unused to library work, has so patiently and intelligently endeavored to do the work assigned her ; and to Mr. Kimball, for his ever ready assistance.

I also wish to express my appreciation and gratitude for the kindness, encouragement and advice of the trustees.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

Report of the

Superintendent of Schools

To the School Board:

I submit herewith the report of the past year's work in this department and recommendations for the coming year.

The conditions arising from the rapid growth of the city and consequent growth of the schools have been met during the past three years by various devices to tide us over until the time when additional school facilities might be provided. This time has been postponed repeatedly because of the increasing burden of taxation imposed by the state and by the county.

Today we face these conditions. In the Allen school we are using two rooms never intended for use as school rooms. They are dark or ill-ventilated. In the High School building there are four rooms occupied by grades, and the High School of 210 pupils is crowded into one less room than it occupied in 1904, when there were but 160. There will probably be another considerable increase next September. Some action must be taken to meet these conditions. I put them before you for your action.

The rules and regulations of the board have not been published since 1905 and the edition is exhausted. Several changes which have been made should be incorporated in them, and there are amendments that might be made with profit to the schools.

First, there are the rules governing the hiring of teachers. These provide for an election of teachers not before June first. This keeps the teachers in some uncertainty and prevents us from seeking experienced and efficient teachers at work in other towns. It is becoming the general practice to elect teachers in April or May, thus giving the administration time to seek substitutes for those who refuse re-election.

It is a pleasure to be able to report a considerable decrease in the number of teachers who have resigned during the year. In the High School there was but one resignation, and the increased efficiency of the teaching force has been very apparent. In the grades the same situation obtains. Many teachers have refused offers of positions in larger places. This speaks well for the graded salary list. But I still think that better results might be obtained by the substitution of a more flexible scale based upon efficiency, as well as duration of service, and by the establishment of a new maximum of $500 for exceptional cases where long and efficient service might be recognized by special vote of the board.

I would like to see a section incorporated in the rules providing for a settled and fixed remuneration for teachers sick or unavoidably absent. It would help us to obtain good teachers if it were expressly stated in the rules that, for a certain limited time, pay would continue in case of illness, and afterwards half pay up to a further limit. This seems fair, and puts the matter on a business-like basis.

Last fall, the Board, through the generous assistance of Dr. F. S. Gray, arranged for a systematic inspection of the eyes of all pupils. Already many cases have been discovered where poor work by a pupil was directly traceable to defective eyesight. I have heard some

indignation expressed that the School Board should assume responsibilities alleged to belong more properly to parents. This is no doubt due to a misapprehension. The movement is wholly in the interests of the children. There is no implied reflection on the parents. You are simply providing inspection to preserve children from defective eyesight, as you provide drinking water to preserve them from thirst. Rather than recede, we should go a step farther and provide for an inspection of teeth and, if possible, for a general medical inspection.

The recent scarlet fever epidemic calls attention to the evil of the common drinking cup in schools. A recent bulletin issued by the State Board of Health condemns it as the foremost factor in the spread of contagious diseases in the school room. Certainly here is an avoidable risk of disease which is intolerable. Sanitary drinking fountains are available at reasonable cost and should be installed.

Two years ago the Board inaugurated the policy of apppropriating each year $1,000 for repairs on the school plant. This money has been expended on the East Rochester, High, and Allen buildings. This year it seems just that certain repairs at Gonic be made. They have been waiting for some years, and this year can be handled without exceeding the appropriation.

I cannot close without once more calling attention to the unsanitary conditions at School street and Meaderboro. They call for immediate remedy.

Respectfully submitted,

ANDREW JACKSON.

Report of the

Principal of the High School

To the Superintendent:

In this report I wish to call attention to the following matters relative to the high school. First, there has been a noticeable increase in our enrollment during the past year. Second, this increase has added more pupils to our already overcrowded rooms and classes. Third, the work in our commercial department demands attention. Fourth, slight changes in the course of study have been made.

Our registration during the fall term of last year was 184 pupils. During the same period of the present year we have registered 210 pupils, which gives an increase of slightly over 14 per cent in our enrollment for the year. Investigation shows that there has been an almost constant increase in the enrollment, without a corresponding increase in the teaching force. In other words, there are about forty more pupils in the school than there were when the last teacher was added. We have now seven regular teachers, not including the teacher of music, which gives an average of thirty pupils per teacher.

Now, if our classes could be so arranged that not more than thirty pupils would recite in one division conditions would not be so unfavorable ; but it is impossible to so divide the classes. For example, Mrs. Allen's classes in History numbered over forty pupils during

the fall term. The same is true in first year English and Algebra. Consider the probable progress of a pupil in such divisions when the majority of the pupils need individual attention. Consider, also, the demand upon the same teacher who has over one hundred and fifty different pupils in her classes daily, including all of the senior and junior English and English Composition, and one understands more readily why some pupil fails to manifest the training which he should have received.

The condition just described does not exist in all of our classes; but it is true that the pupils need more attention than their teachers are able to give. There is urgent need of the service of another regular teacher, and to insure satisfactory results such should be provided before the close of the present school year.

A year ago the Superintendent called attention to the overcrowded condition in the schools of the city. What he said concerning the grades is true of the conditions in the high school. Since September, 1908, we have occupied four rooms on the second floor and the laboratory on the third floor of the high school building. A portion of the laboratory has been transformed into a recitation room for other classes. Thus the science classes are deprived of half the space originally intended for their use. At the beginning of the next school year two rooms on the first floor should be opened for high school classes.

Our commercial department deserves special attention. The business interests of Rochester are constantly in need of young men and women of commercial training. Shall we fit our pupils so that they may accept and satisfactorily perform the work of such positions, or, shall we, for lack of facilities, allow our young people

to seek this practical training and consequently their employment elsewhere? What we ask is, that those who have been entrusted with the care and control of this matter examine the actual operation and work of this department of the school.

The four typewriters, which have been in almost constant use for several years, are not adequate for our increasing number of pupils. Two of these machines should be replaced and another should be added, making five in all.

The individual needs and circumstances of our pupils seem to call for four courses of study. The Classical, or regular college preparatory course, is outlined for those pupils who are able to secure a college education. The Scientific course is similar to the Classical, but is intended to fit boys for scientific schools. Pupils who possess natural business ability and who are unable to continue through a college course should be able to secure the essentials of a business training in the high school. Our Commercial course is designed to meet this need. The importance of this course is shown by the fact that a comparatively large number of our pupils elect the course. The English course is designed for a fourth class of pupils who, for one reason or another, seem unfit for one of the first three courses.

The work in each course has been so arranged that the number of classes is not larger than is required to accommodate the number of pupils in the school. At the same time our aim is to afford each pupil the best possible opportunity to follow the line of study along which he is naturally inclined.

Your teachers welcome parents and others who are interested in the work of the school. More time could

be spent profitably in discussing with parents the work of their pupils.

There is much which puts me under obligation to my fellow teachers and to all those for whose benefit this school is intended.

Respectfully,

F. L. THURSTON,

Principal.

Report of Supervisor of Music

To the Superintendent:

SIR:—The report of conditions in the music department can be stated in a few words.

In the grades the interest manifested by both teachers and pupils was never better; and since my acquaintance with the schools here, the number of teachers who were able to efficiently co-operate with the Supervisor was never so large as at the present time. If the present teaching force can be maintained without a change for a few years, much may be accomplished in the music department that we have not so far been able to realize.

In the High School there is an improved interest in the chorus work over that of last year, due in no small degree to the inspiration afforded by the orchestra of violins, under the intelligent and enthusiastic leadership of Mr. Neal. The discipline in the room is constantly improving, and the Supervisor wishes to acknowledge his indebtedness to Principal Thurston and his assistants for the hearty co-operation and sympathetic interest in the work of the chorus.

It may not be out of place to mention here a need of the High School, which must be met if we are to progress to the highest possibilities of attainment along the lines of our work. We are greatly in need of facilities for the proper disposition of the chorus in public performances.

It is hoped that we shall soon be able to construct and own a stage capable of being assembled and taken down by the boys of the school, under the supervision of one or more of the teachers, which will be available for chorus performances at any time, not only by the High School but by the local choral society, thus making it a matter of interest to all who are interested in such matters.

Thanking all those who have in so many ways contributed to whatever of success has attended my labors here in the past year, this report is

Respectfully submitted,

A. E. FRENCH.

Class Ode

Words by Lillian I. Dennett Music by Muriel Hunt

We are standing at the portal
Of a future, fair and bright
Knowing not what lies before us,
Hoping, trusting, in the right.
Friendships we have formed in schooldays,
(May they always be as true
May our memory oft remind us)
Change not old friends for the new.

In the years we've passed together,
We have learned that in the fray,
Each must give and be forgiven,
Helping others on the way.
Doing that which comes before us
In the way we know is best
For 'tis little things that try us,
Doing these we stand the test.

Now Life's morning breaks upon us
Bringing tasks forever new,
And we look to our Creator
For the work we are to do.
We are climbing up Life's hillside,
Young, ambitious, full of hope ;
May we learn to find contentment
When Age leads us down its slope.
